

# Syracuse Eleven Triumphs Over Nebraska Cornhuskers 9-6 in East-West Game

FIELD GOAL IS  
WINNING MARGIN  
IN BIG BATTLE

East Is Victor in Grid  
Clash; Syracuse Puts  
Game Away Late

SYRACUSE, N. Y., Nov. 4.—East triumphed over the west today by the margin of one field goal, Syracuse university defeating the University of Nebraska, 9 to 6, in the hardest fought battle witnessed in Archbold stadium in years. The field was heavy and few trick plays were attempted, straight football predominating. Syracuse, however, outplayed the Cornhuskers, contenders of the championship of the Missouri Valley conference.

In the third period, with the score 2 to 0 in favor of Syracuse, Thompson, Nebraska, and, scouted up a Syracuse fumble and raved from mid-field for a touchdown. Syracuse electrified the crowd in the final period by unleashing a powerful offensive.

## Drove Down Field.

Driving down the field, from mid-field, the Syracuse backs ripped off consistent gains of three and five yards on every plunge. Anderson, the veteran half back of the Orange squad, did most of the ground gaining on straight line plunges. With but two yards to go, the winning score, he smashed across between the Nebraska center and right guard for a touchdown.

Honors were even for the most part throughout the game, neither Nebraska nor Syracuse being able to make consistent gains on line plunges or end runs.

Syracuse scored early in the opening period on a 35-yard field goal kicked by McBride. The Orange had recovered a Nebraska fumble on the scarlet 20-yard line and threatened their opponents' goal with a series of line plunges and a short forward pass. With the ball but a few yards away from its goal line, however, Nebraska held and Syracuse surrendered the oval to the westerners. Nebraska broke a failed distance and Zimmerman signalled for a free catch on the westerners' 25-yard line. A tee was then placed and McBride sent the ball over with a short kick. That ended the scoring until the third period, for neither side could gain the distance when in possession of the ball and punts were frequent.

## Anderson Is Star.

Orange hopes revived in the fourth period when Anderson started to rip the heavier Nebraska side to pieces. Gain after gain was reeled off by the hard hitting Syracuse half back, and he never stopped until he put the ball across the westerners' goal line for the winning tally.

## Line-up and summary:

Nebraska (6): Pos. Syracuse (9)  
Schoppe L. E. Jappe  
Wenke L. T. Starobin  
Bassett L. G. Van Harnen  
Peterson C. H. Heers  
Burlquist R. G. Waldorf  
Weller R. E. McRae  
Scheerer R. E. Frigo  
Preston R. H. B. McBride  
Dewlin L. H. B. McBride  
Noble F. B. Zimmerman  
Hartley F. B. Zimmerman

Score by periods:  
Syracuse . . . . . 3 0 0 6—9  
Nebraska . . . . . 0 0 0 0—0

Umpire, Ed Thorpe.  
Field Judge, Okeon.

## FEW FULL-BLOODS CHIPPEWAS LEFT

Hereditary Chief of Tribe  
of North Visits Friend  
at Osage Agency

PAWNE, Nov. 4.—William Madison of Independence, Mo., hereditary chief of the Chippewas Indians, now living upon their reservation in Minnesota, has been visiting George Beaulieu, hereditary chief of the Osage Indians, at the Osage Indian agency.

While here the two discussed a great deal over the Chippewas, both being members of the same tribe. Madison is a grandson of Ma-She-Ke-Ge-Shig, the last chief of the Chippewas under the old tribal regime.

The Chippewas are a forest loving tribe, inhabiting the great lakes and Canadian border. At one time they numbered 10,000, but the stock has become mixed up and crossed with other races that it is difficult now to secure accurate data on the number of full-bloods.

White Earth is the center of the Chippewa reservation, and an Indian agency is maintained there. The last trouble that the Chippewas had with the government was in 1859, when a group of Chippewas living on an island in the lake country of Minnesota were ordered to get off. In the misunderstanding that ensued, 15 soldiers and 1 Indian were killed. The island party was then captured and taken to Oklahoma territory and kept as prisoners for a time, and then returned to Minnesota.

The Chippewas elect their chief now annually as do the Osages, and the affairs of the tribe are similarly managed. The percentage of restricted Chippewas is lower than that of the Osages, because the northern tribe has not the fabulous wealth of the southern Osages. Beaulieu, though a native of Minnesota, has resided in Oklahoma for 16 years and by sheer merit has advanced to his present position.

HARRY GREB TO  
MEET ROPER IN  
NEXT RING SHOW

American Champion Will  
Not Get Chance at  
Siki Just Yet

## Important Boxing Bouts This Week

Nov. 5—Harry Greb vs. Junior Fried, 12 rounds, in Boston.  
Nov. 6—Jack McBride vs. Frank Carbone, 15 rounds, in Canton.  
Nov. 7—Paul Hurlbut vs. Young McIlwain, 15 rounds, in New Orleans.  
Nov. 8—John L. Sullivan vs. Kid Puncher, 15 rounds, in Brownsville, Texas.  
Nov. 9—Bobby Holton vs. Kid Egan, 15 rounds, in El Paso.  
Nov. 10—Frankie Hutchinson vs. Frankie Fleming, 15 rounds, in New Orleans.  
Nov. 11—Anthony Dwyer vs. Bob Schira, 15 rounds, in Philadelphia, Ohio.  
Nov. 12—Jeff Smith vs. Martin Burke, 15 rounds, in New Orleans.  
Nov. 13—Frank Carbone vs. Tommy Dillard, 15 rounds, in Allentown, Pa.  
Nov. 14—Al Roberts vs. Leo Williams, 15 rounds, in Tonawanda, N. Y.  
Nov. 15—Hutchinson vs. Champ Ross, 15 rounds, in Chicago.  
Nov. 16—Tommy Laughlin vs. Louis Hughes, 15 rounds, in Detroit.  
Nov. 17—Harry Greb vs. Bob Roper, 2 rounds, in Buffalo.  
Nov. 18—Stu Jones vs. Frankie Schaefer, 15 rounds, in Aurora, Ill.  
Nov. 19—Dick Salton vs. Augie Harris, 15 rounds, in Detroit.  
Nov. 20—Frank McIlwain vs. Battling French, 15 rounds, in Central City, Colo.

## By EDWARD W. COCHRANE

Harry Greb, the "human windmill" from darkest Pittsburgh, may have to be content with hurling his shower of padded mittens at American light heavyweights and middleweights for the time being. It does not seem anywhere near certain that Battling Siki, the shorty hood scrappier from Senegal, who knocked the world's championship at his weight off the brow of Georges Carpentier, is going to come to this country to defend the crown. If he does come there is no assurance that Greb will be fortunate enough to meet him in the hoped-for circle, the money grabbing agents who promote boxing wishing to put the conqueror of the French war hero against heavyweights.

Greb is the American champion and it would seem only logical to give him the first match with the negro here to clear up the world's title, which the shifty, clever Greb has taken from the African in a decision contest in New York. But possibly that is the rub. Tex Rickard realizes that Greb would throw so many gloves into the map of the Senegalese that there would be no way to save Siki for a match with some good heavyweight which will draw as much money as one with a mediocre Norfolk or Brennan. Siki will stand a better chance of winning.

## Meets Roper Next.

Siki resembles a gorilla in action. He is not clever. In fact he is a very crude piece of boxing machinery. But he can punch and can batter Carpentier beyond recognition. He will batter some of the rough unsentimental American fighters in a similar manner, but not Greb, who is too fast to be the target for many punches from a wild man of the Senegalese type. Greb has said now that he may come to America in January. He said he was coming in October, then November and now January. Possibly he will not come at all. In the meantime, Greb will go right along fighting American scrappers of his weight. His first will be with Bob Roper, the veteran army boxer from Buffalo. Roper is just good enough to hold his own with a lot of scrappers, but not fast enough for Greb. Roper got a draw recently with Billy McKee in Oklahoma City, but it looked like a league of being a good fighter. Greb is fairly clever and a good mixer at close range, but he doesn't stack up around with the speed of Greb and can throw gloves into the general direction of the opposition much faster than he can move his feet. Greb will devote Roper to his customary fashion and go on to the next one.

## Greb Best of Lot.

There are better men than Roper for the Pittsburgh "windmill" to meet. He can fight Mike Gibbons, Brennan and a few more of the type, but he can beat them all. He isn't a puncher, but where decisions are given his ability to pile up points by boxing skill and speed enable him to get the plum. The proper thing to do is bring Siki here and let him fight Greb for the world's championship. If it were not for the fact that promoters think more of money than they do of the game itself, that is exactly what would happen.

Joe Malone, St. Paul middleweight, continues on his march to the top of the division and he keeps up his present high campaign. He is likely to dispose of all the other contenders during the present season. Malone will fight twice this week, according to schedule. He is to meet Frank Carbone in Canton Monday night and Augie Ratner in Detroit Friday night.

## Carbone Is Easy.

Carbone is a slow awkward fellow, who should be a set-up for the clever, shifty Malone. It is doubtful if Carbone can lay a glove on Joe in 10 rounds. Ratner, who whipped a fighter, He is fast, tough and a puncher. He will give the St. Paul entry plenty of opposition. Malone already has whipped Bryan Downey, champion of the title, who beat Johnny Wilson, champion, in Cleveland, but was disqualified on a questionable foul. It has been said that there will be few in his path to the top.

Jeff Smith, who polished off Bob Roper in 15 rounds down in New Orleans, is going to meet Martin Burke in the Crescent City this week. Burke is an idol in New Orleans, but he is against one of the best middleweights the game has known. If Smith wants to show at his best he is likely to whip Burke.

At a recent sale of 10-year 5 percent treasury bonds by the Belgian government, subscription lists were opened at 10 a. m. and were covered several times over within 15 minutes, when the lists closed. It was subsequently stated that applicants would receive only one-fifth of the amounts applied for.

## The California Team

By Edgren

Perhaps next year there may be no more inter-sectional football games involving long trips for college teams. But the New Years day games in which California has met Ohio State and Washington and Jefferson in the past two years has aroused nation-wide interest in the Bears.

This East is at last beginning to realize that the part of the United States lying west of the Mississippi can't be ignored in sports. Years ago the East had a monopoly of football talent. Today western teams are as well coached, as well trained, and as full of college spirit as any in the east. No section has a monopoly of good men, so the margin of superiority between the east and west must be small, whichever section leads.

The University of California team has one of the largest student bodies in the country to draw upon for football material. Instead of having to hunt for men to fill positions, Coach Andy Smith is embarrassed by having to choose between several stars for each position. Last year and the year before, after seeing the big games played in the east, I went to California in time to watch the California team against Ohio State and Stanford. The back-field was also at full strength as Chip Toomey was the only man lost there.

So the remaking of the team depended largely upon building a line, which job was up to line coach Boles Rosenthal. He had good material in Bill Gallagher, 180-pound veteran, who was a sub for Latham last year, and Babe Horrell, a great strength as Chip Toomey was the captain of last year's freshmen.

At California every player has a nickname. "Fat" Clarke, guard, started every game last year in that position. He weighs 195. Don Perry, 205-pound guard, played on the freshman team two years ago, then was lost in the "scraps" as they call the second year men at California. He was shown remarkable improvement this year. In spite of his weight he is one of the fastest men in the line and his ability to get free and go down the field under punts is terrific.

Muller and Berkeley, the star ends. Muller is a powerful man, weighing 180 pounds, and fast and rangy. That made up the new center of the line, and so far it has worked out well.

Predicts Burgess Will Be Star. California has had some famous ends. Of these Brick Muller, all-American end, Olympic athlete and all-around star, is best known. Brick has been out from time to time with injuries. This year he has had a strained shoulder that caused some trouble early in the season. Muller is a big fellow, standing 6 feet 1 inch and weighing 185 pounds.

Bob Berkeley, another end, is 6 feet 1 inch and weighs 180. None of these Californians are small. Lowell Mel is an end much like Stephens, weighing only 165, very fast and good on defense, and a deadly tackler. He breaks up end runs in great shape.

He doesn't, however, rival Brick Muller in handling forward passes. Darrell Hufford, 175 pounds, was classed as a star by Smith last year, but stayed on the bench because Muller and Stephens were better. Jerry Pierce, Walter Rau and Tom Scott are all good ends.

California's back-field is as strong as the Bear ever boasted. In Don Nichols, Dick Dunn, Bill Bell and Spaulding and Burgess are veteran halves. Spid Spaulding will be remembered as the man who beat Stanford freshmen almost single handed last year. Fast, shifty and an accurate passer, he looks fully as good as Toomey, whose place he fills.

Dick Dunn, with one year's experience, is a corking half. But the coaches agree that Burgess is the coming individual star of the back-field. He is light, only 155, but is fast as lightning and a deadly passer. He is the finishing touch of an almost perfect back-field. Don Nichols is one of the best half-backs the California team has had.

Morry Morrison, because of his line plunging ability, will be used at half when not substituting for Arch Nisbet at full.

Combines Midwest Attack, Eastern Defense. Nisbet is one of the best fullbacks in the country. His kicking is flawless. Last New Years day at Pasadena, when California played a 6-0 tie with W. & J. on a muddy field that hurt California's forward passing and fast end running offense, Nisbet kept the ball down near the visitors' goal line with his long punts so successfully that the California end of the field was hardly trampled. He never fails to get off his punt, and his judgment of height and time and distance is near perfection.

Charles Erb, quarter-back, two years ago on the Varsity, captain of the team, furnishes the directing brain of the Bear machine. He has

are fast men, but his Perry often gets away ahead of them. Boles expects him to become one of the best guards California has had in years.

"Stew" Beam and Jack Witter look like the pick of the tackles. Beam was a substitute last year. He can hardly measure up to Stanley Barnes yet, but is a steady, consistent player.

At the other wing Coach Smith ran into a little difficulty. Realizing that his back-field was almost intact and could hardly be improved upon, and that Morrison and Nesbit could take care of the kicking, he decided to make over Jack Witter, former full-back, into a tackle. It was hard to expect a man new to the position to take the place of Dan McMillan, but Witter made good from the start.

He was full-back on the 1920 freshman team, and was expected to be a sensational kicker last year, but broke his ankle and was out for the season. Witter is a powerful man, weighing 180 pounds, and fast and rangy. That made up the new center of the line, and so far it has worked out well.

## CORNCOB PLANT IS ESTABLISHED

200 Acres of Pipe Corn Is  
Being Grown Around  
Everton Now

Special to The World. EVERTON, Ark., Nov. 4.—The first corn-cob pipe factory in Arkansas will be put in operation at this place by Joe Maguire about the 1st of February.

The factory has been completed and machinery will be purchased this week. Farmers in this section made the first crop of pipe corn this year and it turned out exceedingly well. Compared to the regular variety the ears look like an elephant compared to a sheldrake. The variety is known as St. Charles white. Many of the ears weigh as much as a pound and a half. Two hundred acres were planted this year. A much larger area will be planted next year. The corn will have to cure for several months before they can be manufactured into pipes.

Rivers and Harbors. Colonel Curtis Townsend, United States army, retired, is the author of a new and comprehensive manual on "The Hydraulic Principles Governing River and Harbor Construction." The book will interest not only the student of civil engineering, but all who are concerned with problems of river and harbor improvement. It has just been issued by the MacMillan company in their engineering science series. T. T. Eyre's "Engines and Boilers" was published in the same series a few weeks ago.

Canada's national wealth is estimated at over \$600 per capita.

## IF BACK HURTS FLUSH KIDNEYS

Eat less meat, also take glass  
of Salts before breakfast  
occasionally

Too much meat may form uric acid, which clogs the kidneys, and becomes overworked; get sluggish, ache and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region; you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Drink lots of water; also get from any pharmacist four ounces of Salts, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acids of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to help neutralize the acids in urine, so it no longer is a source of irritation, thus often ending bladder weakness.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relieves congestion instantly. It's just fine. Don't stay stuffed up with a cold or nasty catarrh.—Advertisement.

## HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils  
Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more sneezing, snuffling, blowing, head-ache dizziness. No struggle for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relieves congestion instantly. It's just fine. Don't stay stuffed up with a cold or nasty catarrh.—Advertisement.
